

Wireless N vs. Wi-Fi AC

Struggling with your Wi-Fi?
Your router could be the problem.

Old Wi-Fi with Wireless N

New Wi-Fi with Wireless AC

1 BETTER RANGE

Increased speed at long range,
aiming wireless signal at Wi-Fi
devices by using

Beamforming

Faster speed
at long range

2 MUCH FASTER

Wireless N

Wireless AC

3 MULTI-BAND

Enjoy less congestion, noise
and interference with smart band
selection on up to

3 bands

4 SMARTER WI-FI

D-Link Smart Connect, Beamforming
and MU-MIMO technologies make
Wi-Fi AC **stronger** and
more reliable

Less lag and
buffering

GOAL!

Reliable
Performance
